the question why should i obey the law introduces a contemporary puzzle that is as old as philosophy itself the puzzle is especially troublesome if we think of cases in which breaking the law is not otherwise wrongful and in which the chances of getting caught are negligible philosophers from socrates to h l a hart have struggled to give reasoned support to the idea that we do have a general moral duty to obey the law but more recently the greater number of learned voices has expressed doubt that there is any such duty at least as traditionally conceived the thought that there is no such duty poses a challenge to our ordinary understanding of political authority and its legitimacy in what sense can political officials have a right to rule us if there is no duty to obey the laws they lay down some thinkers concluding that a general duty to obey the law cannot be defended have gone so far as to embrace philosophical anarchism the view that the state is necessarily illegitimate others argue that the duty to obey the law can be grounded on the idea of consent or on fairness or on other ideas such as community

raises concerns about the degree to which the rule of law and emergency powers have become fundamentally entangled using israel as a case study contemporary debates on states of emergency have focused on whether law can regulate emergency powers if at all these studies base their analyses on the premise that law and emergency are at odds with each other in between the rule of law and states of emergency yoav mehozay offers a fundamentally different approach demonstrating that law and emergency are mutually reinforcing paradigms that compensate for each other s shortcomings through a careful dissection of israel s emergency apparatus mehozay illustrates that the reach of israel s emergency regime goes beyond defending the state and its people against acts of terror in fact that apparatus has had a far greater impact on israel s governing system and society as a whole than has traditionally been understood mehozay pushes us to think about emergency powers beyond the war on terror and consider the role of emergency with regard to realms such as political economy

a bible student reference a new testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before jesus christ returns in glory is being fulfilled now and is shortly to end yet christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that christ s return is therefore now almost upon us how and why this is the case is here explained thoroughly and logically with many examples directly from the word of god in god s saving plan for the world everyone must in time make a free will choice to become part of the israel of god in order to access eternal life in the kingdom of god the route to take is the strait and narrow way mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this israel embark on this voyage only if you are willing to be challenged about some basic christian preconceptions be a serious open minded bible student and trust what the bible teaches but remember that time is short what the bible has taught me i see as both vital and urgent for our eternal salvation yet i know of no church or individual theologian who teaches what this book deals with in any substantive way be prepared for major challenges to your understanding just as god has challenged me in the epistles paul refers to two israels whom he calls israel after the flesh i cor 10 18 and the israel of god gal 6 16 i focus mainly on the latter but i also explain an unexpected but critically important connection between them dependent on the teaching nearly all christian denominations either teach nothing at all on it or almost the opposite of what scripture repeatedly showed me looking back i find this absolutely staggering very few christians understand that the new covenant also only applies to israel as i will clearly show i no longer believe that the nt new testament can be fully understood without this extra israel dimension had i felt i could deliver this in a more light hearted way i would have done so but its implications are too awesome and fundamental to our eternal life prospects for that
